PROFESSIONAL SUMMARY

IT graduate (B.Tech, CGPA 8.52) with hands-on experience in data analytics, cloud infrastructure, and web application development. Skilled in Python, SQL, Pandas, and Power BI for data cleaning, ETL, and KPI dashboards; AWS, Docker, and GitHub Actions for cloud deployment and CI/CD; and HTML, CSS, JavaScript, React.js, Django REST Framework, and MongoDB for web applications. Strong communicator with experience presenting data-driven reports to stakeholders and working with cross-functional teams, bringing consultative communication, customer engagement, and a target-driven mindset to international sales. Seeking a role in data analytics, cloud, full stack development, or international sales.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, Java

Data Analytics: Pandas, NumPy, Power BI, Excel, ETL, Data Cleaning, Data Validation, Data Visualization, KPI Reporting

Cloud & DevOps: AWS (EC2, S3, IAM, VPC, RDS, CloudWatch), Docker, Docker Compose, GitHub Actions, CI/CD, Nginx, Linux, Windows Server

Web Development: HTML5, CSS3, React.js, Context API, Django REST Framework, RESTful APIs

Databases: MySQL, MongoDB, SQLite

Tools: Git, GitHub, Postman, VS Code, Jupyter Notebook

SALES & COMMUNICATION SKILLS

Sales: Consultative Communication, Customer Engagement, Objection Handling (learning), Follow-up and Relationship Building, Target-Driven Work

Communication: Presentation Skills, Active Listening, Stakeholder Reporting, Cross-Functional Collaboration, Time Management

Business & Reporting: KPI Reporting, Dashboards, Report Preparation, Data-Driven Decision Support

Languages: English, Tamil, Kannada

INTERNSHIP EXPERIENCE

Data Analytics Intern | Wiltech | May 2026 – Jun 2026
- Cleaned, transformed, and analyzed structured and unstructured datasets using Python, SQL, and Excel.
- Applied data validation techniques to ensure data accuracy, consistency, and quality.
- Developed reports and interactive dashboards to present key metrics to business stakeholders and support data-driven decisions.

App Development Intern | Phoenix Softech | Jun 2025 – Jul 2025
- Developed and tested Android (Java-based) application modules, collaborating with cross-functional teams to design and enhance features.
- Communicated progress and resolved issues with team members; assisted in debugging and improving application performance.

PROJECTS

FORESIGHT: Demand & Inventory Intelligence | Python, SQL, Pandas, Power BI
- Cleaned, aggregated, and engineered features from large retail transaction data using Python and Pandas.
- Built demand forecasting and inventory-risk analysis to identify stockout and overstock situations, presented through Power BI dashboards.

Employee Data Analysis Dashboard | Python, SQL, Excel, Power BI
- Developed an interactive dashboard with exploratory analysis and KPI tracking to present employee performance and key business metrics.

Cloud Infrastructure & CI/CD Automation | Docker, Docker Compose, Nginx, GitHub Actions, Git
- Containerized a web application and served it through Nginx for consistent, repeatable deployments.
- Implemented a GitHub Actions CI/CD pipeline that builds Docker images and tests changes on every commit.

Website Hosting on AWS EC2 | AWS EC2, Windows Server, RDP
- Launched a Windows Server EC2 instance, connected via RDP, configured it as a web server, and hosted a demo web application.

Student Management System | Java, MongoDB
- Built a full-stack application with CRUD operations and database schema design to manage student records and courses.

EDUCATION

Bachelor of Technology in Information Technology | NPR College of Engineering and Technology | CGPA: 8.52

CERTIFICATIONS

- Cloud Computing – NPTEL; Cloud Computing, IoT, IoT Communication Technologies – Infosys Springboard
- Git and GitHub, MongoDB – Value Added Course; Introduction to MERN Stack, Introduction to Cybersecurity – Simplilearn
- NumPy Tutorial, Manual Testing, Machine Learning Basics, Predictive Analytics – Great Learning
- Critical Thinking in AI Era, Data Science and Analytics – HP; UI Automation in StudioX – UiPath
